

# From the Desk of Editor-in-Chief

With immense pleasure I would like to announce that we are publishing the Volume second of MIDSJR Journal of Dental Research after the successful publication of complete volume one. *“Everything is possible when you have right people to support”* I would like to extend my heartfelt thanks to the authors and our management for their constant faith in me and their utter support in this hard time of corona pandemic.

The Volume 2 Issue 1 has been created with the great efforts of providing the quality manuscripts rather than the quantity, the volume contains not only the curative aspects of the oral diseases but also focuses on the rehabilitatory part of the oral conditions including the ethical way of marketing in the dentistry. The special emphasis was given on the combination syndrome a condition caused by the presence of the lower anterior teeth and the absence of the posteriors resulting in significant maxillary anterior alveolar resorption which needs thorough diagnosis, proper treatment planning and accurate execution, all these things are elaborated in well in the manuscript.

I dedicate this issue to all the faculty members of MIDSJR Dental College, Latur who immediately responded to the call for manuscripts and submitted their valuable work to the Journal.

**Dr. Suresh S. Kamble**
